In this role, you'll gain hands-on experience and develop the skills needed to become a qualified Environmental Health Officer; all while studying and earning a wage. It's a unique chance to work on Country, support your community's wellbeing, and grow professionally with strong guidance and support from our experienced Environmental Health team.

- Supporting the team on development applications and environmental assessments.
- Helping respond to community requests about air, noise, water, contaminated land and waste issues.

- Participating in health promotion activities and local community events.
- Learning how to maintain accurate records and write basic reports.
- Developing your understanding of public health and environmental laws.

You'll need to be a good communicator, a reliable team player, and someone who's organised and comfortable working both indoors and out in the field. Most importantly, you must be eligible for, and committed to, completing a [Bachelor of Science \(Environmental Health\)](#) at Western Sydney University.
