About the role

Electrical Trade Assistant

You'll be working alongside our qualified electrical tradespeople and cable jointers, assisting with a range of electrical and civil construction works.

Key responsibilities

- Assisting electricians and cable jointers onsite
- Cable installation, hauling and handling
- Installation of conduits, pits and associated infrastructure
- General electrical and civil construction duties
- Operating tools and equipment
- Loading and unloading materials
- Site preparation and clean-up
- Following WHS procedures and working safely around electrical infrastructure

About you

- Reliable and turns up ready to work
- Strong work ethic and good attitude
- Physically fit and comfortable working outdoors
- Can work well as part of a team
- Takes safety seriously
- Willing to learn and develop skills
- Current Australian Driver Licence
- White Card
- Ability to pass relevant pre-employment requirements

About us

Power Kinnect is a Level 1 ASP electrical contractor working across the Mid North Coast, completing underground and overhead electrical infrastructure, subdivisions,

network upgrades and associated civil works. This position will be based out of our Wauchope depot, with travel to project sites across the Mid North Coast as required.

Benefits

- Full-time employment
- Competitive pay based on experience
- Overtime opportunities
- Variety of electrical infrastructure projects
- Opportunity to learn from experienced electricians and cable jointers
- Long-term opportunity within a growing electrical contracting business
