 - Coffs Harbour, NSW
 - Lismore, NSW
 - Tamworth, NSW

If you're currently in your 2nd to 4th year of an apprenticeship, we also welcome your applications, offering a chance to further enhance your skills and expertise.

Why Stowe?

Embark on a dynamic career pathway with Stowe Australia, where you'll receive comprehensive training and exposure to diverse commercial and industrial electrical installations and maintenance facets. As a tier-one Electrical Contracting company, Stowe takes pride in its rich history of excellence in all facets of electrical and communication installations.

Your role as an Apprentice Electrician

- Performing preparation work and installation of cable pathways and supports
- Installing electrical and communications cabling as required (both internal & external)
- Identify and terminate electrical and communications cabling (e.g. colour coding)
- Assist in testing of installed cabling systems and associated equipment
- Interpret and maintain up-to-date documentation
- Maintain good communication with teammates and other personnel at all times
- Ensure compliance with all relevant Australian Standards and site requirements
- Assistance with various project and service groups as required, including

purchasing and equipment checks

- Participate in on and off-the-job training to advance your skills and responsibilities.
- Comply at all times with company policies and procedures

What you bring to the table

- Commitment to completing a 4-year apprenticeship in Certificate III Electrotechnology.
- Current Driver's Licence (minimum Provisional P1) with reliable transport
- Construction General Induction (White Card)
- Completion of Year 10 or higher education
- Motivated, shows initiative and willingness to learn
- Reliable, punctual and enthusiastic attendance
- Diligence to safe work requirements
- Follow directions and perform tasks with excellent attention to detail
- Contributes to achieving desired outcomes and a positive work culture
- Basic computer/mobile device skills, including knowledge of the Microsoft Office suite

What we offer

- Paid TAFE attendance during work hours
- Electrician's Apprentice Tool Kit provided on commencement
- Full uniform and PPE supplied
- Rostered Days Off (RDOs) and overtime opportunities
- Structured mentoring and support through our Apprentice Mentoring Program
- Ongoing training, development and leadership opportunities
- Support to obtain additional qualifications, licences and industry skills
- Access to industry-leading tools, technology and systems
- A supportive team culture focused on safety, quality and integrity
- Employee rewards and discounts platform
- Employee Assistance Program (EAP)
- Fitness Passport access for employees and their immediate families

Timeline

- **Applications close:** 5:00 PM on Friday, 4th September 2026
- **Online Aptitude Testing:** 13th – 20th September 2026
- **Interviews:** Week commencing 5th October 2026 (shortlisted candidates)
