Wauchope

Employment Type

Full-time

We're Hiring in Wauchope & Mid North Coast NSW!

Be Part of Something Bigger – Hands-On Work That Truly Matters

Join Accredited Restorations in Wauchope, Mid North Coast NSW!

Be part of a supportive team restoring homes and lives after water, mould, fire and storm damage. Great pay, full training, career growth and a culture built on gratitude and teamwork.

We don't just fix buildings — we help restore properties, memories, and peace of mind. Every day is different, every job has meaning, and every team member plays a vital role in making a real impact in people's lives.

We're growing and looking for:

- **Restoration Technicians** ready to bring their skills and passion to the field, and
- **Labourers** who want more than just a job — a chance to learn, grow, and build a career in a unique and rewarding trade.

From **water and mould restoration to fire, smoke, and storm recovery**, our work is practical, challenging, and deeply rewarding. You'll be supported by a strong, grateful team that has your back every step of the way.

Entry-Level Role: Skilled Labourers, Opportunities for New Labourers with Hands-On Training

Join a team where your work truly matters.

From your first day, you'll be supported by experienced technicians who take the time to teach, guide, and share their knowledge.

Learn how to restore homes and bring peace of mind to families — from setting up equipment to seeing the relief when a space is safe again.

Grow practical skills in water extraction, drying, specialised cleaning, and assessing damage.

Step by step, you'll build a career as a qualified Restoration Technician, complete with your own van, tools, and the pride of being part of a team built on gratitude, care, and community.

For Experienced Technicians:

Bring your skills to a team that values experience, initiative, and community. From day one, you'll be trusted to lead restoration projects — from water and mould remediation to fire and storm recovery — knowing that your work makes a direct and lasting impact.

You'll have the support of a collaborative crew, access to company vehicles, equipment, and ongoing training to keep your skills sharp. At the same time, you'll be mentoring the next generation of restoration specialists, passing on your knowledge while continuing to grow in your own career.

Here, your expertise is respected, your contribution is recognised, and your work genuinely matters.

What You'll Do:

- Take pride in restoring homes and lives after water, fire, mould, and storm damage – from start to finish.
- Operate specialised drying and cleaning equipment with care and precision.
- Conduct thorough inspections, moisture readings, and detailed reports, ensuring every job is done right.
- Work closely with a supportive team, sharing knowledge, celebrating wins, and helping each other grow.

Who You Are:

- Reliable, punctual, and ready to contribute with a positive attitude.
- Physically fit and eager to learn new skills in a hands-on, practical environment.
- Able to work independently but thrive in a collaborative team culture.
- A communicator with care – treating clients and colleagues with respect and empathy.

Your Journey Starts Here:

- **A Team That Has Your Back** – Join a close-knit, supportive crew where collaboration and respect are at the heart of everything we do.
- **Work with Purpose** – Every day, you make a real difference for people in challenging times, helping restore homes and peace of mind.
- **Growth and Learning** – From day one, receive hands-on mentoring, paid training, and a clear path to progress from labourer to qualified restoration technician.
- **Tools for Success** – Access to professional equipment, company vehicles, and the resources you need to perform at your best.
- **Recognition and Appreciation** – Your effort is noticed, valued, and

celebrated. We believe gratitude strengthens our team and workplace culture.

- **Stability and Security** – Full-time, locally owned company with a clear career pathway and consistent work across the Mid North Coast region.

What Would Make You Shine in This Role

- **A Keen Eye for Details** – Understanding different materials like carpets and building structures helps the team deliver the best restoration results.
- **A Sense of Care for People and Property** – Spotting mould or biohazards and helping design safe, effective remediation plans makes a real difference for clients.
- **Content Handling Skills** – Assessing, organising, and restoring belongings is a meaningful way to directly impact people's lives.
- **Hands-On Confidence** – Using power tools or specialised equipment safely brings your practical skills to life and supports the team.
- **Sanitisation Awareness** – Following hygiene protocols and using PPE ensures a healthy, respectful workplace.
- **Tech-Savvy Approach** – Documenting work, using apps, and reporting accurately strengthens transparency and client trust.
- **Multi-Discipline Exposure** – Work across water, fire, and mould restoration projects for a variety of real-world experience.
- **Reliable Mobility** – A current driver's license allows you to reach and assist communities across the Mid North Coast.
- **Alignment with Values** – We are community-driven, honest, and supportive, always acting with gratitude and a spirit of service. Being part of our team means uplifting one another, working together joyfully, and bringing purpose and care to everything you do.

Join Our Restoration Team – Make a Real Difference Every Day

Step into a role where your work truly matters. At Accredited Restorations, we're more than a team – we're a community built on gratitude, support, and collaboration.

Why You'll Love Being Part of Our Team:

- Be part of a close-knit team that values gratitude, teamwork, and celebrating every success.
- Learn and grow with ongoing training and real career progression.
- Use your skills to make a visible, meaningful impact in people's lives.
- This isn't just a job – it's the start of a fulfilling career in restoration, surrounded by people who support and lift each other every day.
